### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claims 1, 8 and 15 among other things teach 'a system and method for provisioning restoration paths in a computer network environment with a primary path generator identifying a primary path for normal network use; an auxiliary graph generator constructing a directed auxiliary graph from an undirected graph by reversing each link in the primary path and replacing each other link that is not in the primary path by two direct links; a walk identifier configured to walk the auxiliary directed graph with bridges; and a bridge identifier decomposing said walk into bridges, each protecting a different portion of the primary path making a restoration path. Both the restoration path and primary path meet the quality requirements.' The quality of service constraints ranging from bandwidth, cost and delay. The invention seeks to keep these measurements at a minimum in a restoration path.

The prior art does not teach the cited limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
